# Smart Railcars

## Remote Tracking & Cargo Monitoring Services To Help You Protect Your Sensitive Materials

### EVERSEE

A preprogrammed, intrinsically safe GPS device that uses the Globalstar Low-Earth-Orbiting Satellite to report the location of detached vehicles at scheduled intervals or upon the occurrence of predefined events.

*Small, rugged; easy to install; inexpensive to operate*

*Long-life internal battery; no external antenna*

### GEOGRAPHIC INFORMATION SOFTWARE (GIS)

The SkyPassage Network also includes GIS, a computer-mapping technology that obtains information about your moveable assets that can help you manage your fleet and help you solve problems, make proper decisions and determine appropriate actions.

### SENSORS

State-of-the-art sensors that provide value-added information about your railcars, trailers or containers from virtually anywhere in the world.

**Empty/Full**  
*Sends an alarm when vehicle has reached empty status or is full*

**Open/Close**  
*Sends an alarm when door/manway cover has been opened or closed*

**Temperature**  
*Sends current and average temperature since last communication; sends alarm if temperature reaches unsafe levels*

**Chemical Sniffer**  
*Sends alarm when reaching customer-defined alarm presets; can sniff chlorine, ammonia and many other gases*

**Impact**  
*A 2G, 3G or 5G customer-programmable, two-axis impact accelerometer*
